Alejandro Glatt

M U L T I D I S C I P L I N A R Y A R T I S T

From Tulum to Dubai

Alejandro Glatt is a Tulum-based Mexican multidisciplinary artist—*the first Mexican to send a papaya to the Moon.*

He is the creator of Feel the Fruit, an artistic movement that reimagines fruit as a symbol of expansion, cultural identity, and contemporary ritual.

His practice spans monumental collage, golden papaya sculptures, blockchain-integrated works, large-scale installations, and analog DJ sets that merge sound with symbolic experience.

Working at the intersection of nature and technology, the physical and the digital, Alejandro explores how contemporary art can activate the senses while evolving across decentralized cultural landscapes.
